## Reflect on your mindset during today's class

**When you encountered a difficult algebra problem in today's class, how did you react?**

- I tried different strategies until I found one that worked
- I gave up and waited for the teacher to explain it

**How did you approach learning new algebra concepts in today's class?**

- I memorized the steps without understanding why they work
- I tried to understand the underlying principles behind the concepts

**When you made a mistake on an algebra problem in today's class, what did you do?**

- I analyzed my error and learned from it
- I felt frustrated and moved on to the next problem

**How did you view the challenge of solving difficult algebra problems in today's class?**

- I saw it as an opportunity to grow and learn
- I saw it as a sign that I'm not good at algebra

**When you worked on algebra problems in today's class, how did you feel about asking for help?**

- I saw asking for help as a way to learn and improve
- I was embarrassed to ask for help and tried to figure it out on my own

**When you encountered an algebra problem you couldn't solve immediately, how did you respond?**

- I felt discouraged and stopped trying
- I took it as a challenge and kept trying different approaches

**How did you handle feedback on your algebra work in today's class?**

- I used the feedback to improve my understanding and skills
- I ignored the feedback and continued as before

**What was your attitude towards learning challenging algebra topics today?**

- I embraced them as a way to expand my knowledge
- I avoided them because they seemed too difficult

**Name one positive outcome of the mindset you had today.**

---

---

---

**Describe how your mindset today influenced your interactions with others.**

---

---

---

**Explain one thing you would do differently to improve your mindset tomorrow.**
